Vexie Fullthrottle and The Geargrinders

Strategy

Vexie and the Geargrinders			The Biker Boss	
OVERVIEW			Phases: 2 Hero: P2	
Vexie rides her shielded Geargrinder, trying to wipe us out – in order to break through the plating we must first kill the biker adds and steal their bikes to use as explosive weapons shot into the machine. Once the shield is gone, blast away!			SPECIAL NOTES	
TANK Drop Oil Slicks along wall. Taunt after Tank Buster.	Healer CDs during intermission. Spot healing on oiled players.	DPS Nuke biker adds. Save CDs for when the Geargrinder is weakened!	Immunities – N/A Dispersals – N/A Interrupts – Repair	
Phase 1			ABILITIES	
<div>Defeat biker adds to steal their bikes.</div> <div>Click bikes and use extra action button to aim at boss – fire away!</div> <div>Remove plating with bikes before 100 energy to enter intermission.</div> <div>Rotate around room as boss drops oil puddles.</div> <div>Dodge swirlies and biker charges.</div> <div>Drop oil slicks where bikers will charge through to stun them.</div> <div>Clear oil slicks if debuffed with fire by running across them.</div> <div>If boss hits 100 energy, engage raidwide damage for 30 seconds.</div>			Protective Plating – Stacks must be removed to interrupt it's energy gain, forcing it into a Mechanical Breakdown.	
			Unrelenting CAR-nage – At 100 energy, raidwide damage for 30 seconds.	
			Call Bikers – Bikers charge towards players, inflicting damage and knocking back anyone in the path.	
			Blaze of Glory – Killing a biker allows players to take control of the bike and aim it at the boss, removing one stack of Plating.	
			Burning Shrapnel – When plating is removed, deal raidwide damage and launch swirlies at players.	
			Spew Oil – Targets player and drops an oil slick void zone at their feet.	
			Oil Slick – Bikers that cross over these puddles are stunned for 5 seconds. Players are slowed and slide around.	
			Incendiary Fire – Debuffed players drop fire at their feet, can be used to clear oil slicks.	
Phase 2: Intermission			Bomb Voyage – DoT on players.	
<div>Pop CDs and blast! Boss takes 100% increased damage.</div> <div>Big healing through the raidwide pulsing damage.</div> <div>Interrupt/CC adds to slow their repair.</div> <div>Don't pad on adds!</div> <div>Once repaired, return to Phase 1!</div>			Tank Buster – Knocks back tank leaving a bleed and increased damage taken from Tank Buster for 24 seconds, stacking. Also causes an oil slick to spawn at boss.	
			PHASE 2: Intermission	
			Mechanical Breakdown – When plating is removed, boss takes 100% increased damage and shoots out shrapnel to dodge.	
			Backfire – Raidwide damage every 2 seconds.	
			Tune-Up – Pit mechanic adds spawn and cast repair on the boss.	
MYTHIC ONLY				
Players must soak swirlies to catch oil canisters. Two oil canisters must be brought to each fallen bike before it can be used to destroy the Geargrinder's shield.

Strategy

Cauldron of Carnage The Battle Bots Boss			Phases: 2 Hero: P1
OVERVIEW			SPECIAL NOTES
It's a battle of the bosses and we are caught in the middle! Split the raid to deal with each boss' mechanics, then flip at halftime to reset your stacks of a growing debuff. Be careful moving on Torq's side, and plan your space well on Flare!			Immunities – N/A Dispersals – N/A Interrupts – N/A
TANK	Healer	DPS	ABILITIES
Tank bosses 40 yards away. Be aware of enrage when one boss dies.	CDs during intermission. Healing ramps up as the phase continues.	Single target damage. CDs off CD, keep boss health even.	
Phase 1			
Split the raid into two groups and tank the bosses apart to prevent Raised Guard damage reduction.			When one boss dies, the other enrages!
			Colossal Clash – At 100 energy, both bosses charge to the middle and deal raidwide damage. Swirlies and lava waves fill the arena. Each clash increases damage done by 15% for the next one. Raised Guard – When within 40 yards of each other, bosses take 99% reduced damage. King of Carnage – When one boss dies, the other gains 50% damage every 5 seconds. Blistering Spite / Galvanized Spite – Each boss applies unique stacking debuff to players within 60 yards, dealing increasing damage. Flare (Dino) Scrapbomb – Explodes after 10 seconds dealing raidwide damage, reduced by number of players soaking – knocks back players and leaves a fire puddle that shoots out lava waves. Molten Phlegm – Players pulse damage 5 yards around themselves for 10 seconds. Blastburn Roarcannon – Focuses on player with a red beam, charging for a few seconds before locking in place and blasting anyone still inside the beam. Eruption Stomp – Tank smash that releases lava waves and knocks them up. Torq (Gorilla) Static Charge – When players move, they fill a static energy bar. At 100%, player is stunned for 6 seconds. Stand still to deplete the energy. Thunderdrum Salvo – Players drop swirlies under their feet for 6 seconds. Voltaic Image – Images fixate players for 12 seconds, leaving void puddle if touched. Lightning Bash – Tank smash that deals massive damage plus additional damage for any amount unmitigated.
Bait bomb by wall then soak to split damage. Dodge lava waves that shoot out afterwards. Spread out before Molten Phlegm to avoid splashing raid. Point beam away from raid – once it locks on, move out to dodge.	Limit movement to avoid filling energy bar (stun). Stand still to drain energy bar.	Stutter step when dropping Salvo swirlies. Avoid touching fixating images when they spawn or they will drop a void puddle.	
Phase 2: Intermission			
Bosses clash in middle and increase damage done by 15% permanently.			
			Dodge swirlies. Dodge lava waves. Bosses lose their Raised Guard immunity temporarily – so they can be cleaved down! Swap sides after intermission to reset your Spite stacks.
MYTHIC ONLY			
Tiny Tussle – Toys spawn in the arena, resembling the bosses. They charge towards rival toy when within 15 yards, exploding and dealing raidwide damage for 3 seconds, stacking. Kick toys into each other, staggered, by running in to them. Images now leave void zones if they expire. Roarcannon shoots out three beams now instead of one.

Rik Reverb

Strategy

<div>Rik Reverb</div> <div>The Boombox Boss</div>			Phases: 2 Hero: P1
OVERVIEW			SPECIAL NOTES
Rik likes his sound waves and will assault the raid with amplifier coils that try to charge up to 100% - click on them to drain their energy and stop them exploding. Then use their energy to jump over the sound cloud during intermission!			Immunities – N/A Dispel – N/A Interrupts – N/A
TANK Aim boss away from raid. Taunt at high stacks of Tinnitus.	Healer Healing increases as pylons spawn. Spot heal players channeling pylons.	DPS Nuke adds before they explode. Boss is immune during intermission.	
Phase 1			ABILITIES
<div> <div> Bail pylon drops in good locations. </div> <div> Move away after pylon drop to avoid boss powering them up. </div> <div> Avoid front of boss due to frontal smash. </div> <div> Click and drain pylon energy before it reaches full. </div> <div> Avoid draining twice until 45 second debuff drops. </div> <div> </div> <div> Dodge sound waves from pylons. </div> <div> Nuke adds before they explode – hitting them grants haste! </div> </div>			Amplification – Sonic pylons drop one under boss and one slightly away, dealing damage and stunning anyone in impact zone. Pylons gain energy over time, if full will pulse damage and wipe the raid. Lingering Voltage – Pylons lose power if player clicks and channels them. Deals damage to player every second and increases damage taken by it for 45 seconds, stacking. Echoing Chant – Waves shoot out from pylons, leaving a dot on players hit. Noise Pollution – Pylons pulse light raidwide damage, increases 25% by each active pylon. Sound Cannon – Player targeted by blue beam, dealing damage to anyone in path. Faulty Zap – Players debuffed and pulse AoE 5 yards around them for 12 seconds. Sparkblast Ignition – Pyrotechnic adds spawn while dodgeable swirlies fill the room. Grand Finale – If the adds are not killed in 15 seconds, they explode and deal massive stacking damage to raid. Excitement – Hitting the adds grants 2% haste and 10% move speed, stacking x3 for 10 seconds. Resonance – If boss is within 15 yards of a pylon, charges their power supply quickly. Sonic Blast – Tank smash frontal cone, applying Tinnitus - increasing Sonic damage taken by 100% for 10 seconds, stacking. Phase Two: Intermission Sound Cloud – Boss is immune. Blowout – Glowing pylon will knock players up into the air if nearby. Blaring Drop – Ring of death shoots out from boss, avoidable by being knocked over it. Hype Fever – The third intermission will continue forever, enrage.
Phase 2: Intermission			
<div> <div> Group inside the safe, glowing pylon. </div> <div> Get knocked over the dangerous beam. </div> <div> Run to the next pylon and repeat. </div> <div> </div> </div>			
One pylon will stay up each intermission, making following P1s more difficult. The third intermission lasts forever – enrage!			
MYTHIC ONLY			
If hit by two Echo waves in a row, you will become mind controlled. Sound Cannon blue beam damage is split by number of players inside and will mind control any player that drops below 75%. Pylons now have shields - Faulty Zap players will create a Static Jolt if two touch, removing the shields if within 8 yards of a pylon.

Stix Bunkjunker

Strategy

Stix Bunkjunker The Cleanup Crew Boss			Phases: 2 Hero: P1
OVERVIEW			SPECIAL NOTES
Stix pulls garbage piles and explosives into the arena, requiring players to become rolling rubbish balls themselves. Collect enough piles of trash (and adds) to grow large enough you can absorb the bombs before they explode the raid!			Immunities – N/A Dispel – N/A Interrupts – Scrap Rockets
TANK Taunt swap after one tank becomes a rubbish ball and Demolish.	Healer CDs at 100 energy. Damage increases if garbage piles lit on fire.	DPS Nuke Territorial Bombshells before they explode. Let rubbish balls absorb the other adds.	
Phase 1			ABILITIES
<p>Prepare to roll your rubbish ball if yellow arrow appears above your head.</p> <p>Roll over small trash piles to become medium sized.</p> <p>Then roll over medium trash pile to become large sized.</p> <p>Once large, prioritize rolling into: 1 – Doomsplasive Adds 2 – Other Adds 3 – Boss <i>NOT Territorial Bombshells!</i></p> <p>Avoid rolling over your team, it will stun – face away!</p> <p>Adds run over by rubbish balls take 100% increased damage.</p>  <p>Dodge swirles.</p> <p>Loose spread when pulling with Incinerator, avoid trash piles.</p> <p>Nuke Territorial Bombshells before they explode.</p> <p>Interrupt Scrap Rockets cast.</p> <p>After two rounds of rubbish balls, boss will become immune and fly away.</p>			<p>Electromagnetic Sorting – At 100 energy, raidwide damage and garbage piles spawn.</p> <p>Rolling Rubbish – Random players become rolling rubbish balls, allowing them to roll over and absorb garbage piles – Increasing size allows you to absorb larger objects.</p> <p>Garbage Dump – If a rubbish ball rolls onto boss, explodes dealing 1.5% of boss health.</p> <p>Messed Up – Enemies absorbed by rolling rubbish will be dumped out after, taking 100% increased damage.</p> <p>Rolled – Running over a player with rolling rubbish causes damage and a 1 second stun.</p> <p>Discarded Doomsplasive – Giant bomb that explodes in 26 seconds if not destroyed, dealing raidwide damage, DoT, and increased damage taken from next explosion for 1 minute.</p> <p>Muffled Doomsplasive – A large enough rolling rubbish ball can destroy the bomb, dealing only minor raidwide damage instead.</p> <p>Adds: Territorial Bombshell – An immobile add that becomes mobile at 75% health, will explode if not killed in 30 seconds. If hit by a rolling rubbish, the same effect will be triggered. Scrapmaster – Shoots rockets at players. Junkyard Hyena – Deals stacking dot to target, reducing healing received.</p> <p>Incinerator – Players pulse aoe damage, lighting on fire any nearby garbage piles.</p> <p>Hot Garbage – Ignited garbage leaves a void zone and fumes that deal raidwide damage every 2 seconds, stacking.</p> <p>Demolish – Tank smash that increases all damage taken by 100% for 50 seconds. Meltdown – Large tank damage over 3 seconds.</p> <p>Overdrive – Boss becomes immune and fires down swirles on the raid, then smashes down in a danger zone.</p> <p>Maximum Output – Boss gains 25% attack speed and summons more Discarded Doomsplaves.</p>
Phase 2: Intermission			
<p>Dodge swirles.</p> <p>Run away from the impact zone when boss lands.</p> <p>Prepare for the 25% attack speed increase boss receives.</p> <p>After every intermission, the boss will summon more Doomsplaves that must be absorbed by rolling rubbish.</p>			
MYTHIC ONLY			
Powercoils spawn that deal heavy damage to a targeted healer – must pop defensives and massive healing! Every time boss hits 100 energy, the number of Scrapmaster adds also increases. Scrapmasters now channel a one-shooting beam onto a player that must be interrupted by a rolling rubbish ball or the player will die.

The Conveyor Belt Boss			SPECIAL NOTES
OVERVIEW This boss will throw a variety of dangerous inventions at you – navigate the conveyor belt of weapons and successfully disarm the land mines. Triggering too fast will seal your fate, so time them wisely and assemble yourself some new loot.			Immunities - None Disps - None Interrupts - None
TANK Taunt swap when exploding. Further away = less raid damage. You will be slowed!	Healer CDs during pulsing Sonic Ba-Boom. Heal off the absorb during P2.	DPS Single target damage, high movement. Utilize conveyor belt to move you while you cast!	ABILITIES PHASE ONE Goblin Inventions: Activated throughout the fight. Blazing Beam – A beam of fire shoots out. Rocket Barrage – Rockets target players. Mega Magnetize – Pulls players towards it, stunning on impact. ⚠ Foot-Blasters – Landmines appear, stepping on one triggers an explosion, dealing raidwide damage and increasing raid's damage taken by explosions for 2 seconds. 💀 Unstable Shrapnel – After stepping on a mine, do not step on one for 2 mins, or die. Wire Transfer – Sections of the conveyor belt are electrified, dealing damage to players stood upon them. Screw Up – Marked players spawn drills under their feet, stunning anyone touched. ⚡ Sonic Ba-Boom – Raidwide damage to all players for 10 seconds. Blisterizer Mk. II – Touching a trap launches a player into the air, increasing movement speed by 60% for 6 seconds. 🔥 Pyro Party Pack – Tank explodes 6 seconds later, dealing raidwide damage reduced by distance away. 🔪 Gravi-Gunk – Tank gains stacking damage taken increase and move speed reduction.
Phase 1  <p>Soak mines one at a time, pausing for debuff to fall.</p> <p>Assign 3 groups of 4 players to rotate – can only soak once per phase.</p> <p>Cross sides of the room when old side erupts in electricity.</p> <p>Dodge rockets shooting from side of room.</p> <p>Tank must run away from raid when exploding.</p> <p>Dodge beams shooting from side of room.</p> <p>Run away from magnets to avoid getting sucked in.</p> <p>Drop off drills on side of room if marked.</p>			
Phase 2 Boss flings raid back to the entrance and jumps away. Travel along the conveyor belt to reach boss and continue damage.			PHASE TWO Beta Launch – All players flung to entrance. Bleeding Edge – Rains down void swirlies and applies healing absorb to raid. Black Bloodsplatter – Void goop spills out, empowering boss with 15% damage done and disorienting anyone who touches. Empowered Inventions – All inventions are upgraded with void power. Touching a void projectile will inflict damage to all players.
 <p>Heal off the absorb placed on the raid.</p> <p>Dodge swirlies.</p> <p>When boss phases back to P1, inventions are buffed and 2 trigger at a time now! Bigger beams and AoE exploding rockets.</p>			
MYTHIC ONLY Raid team is assigned a red or blue polarization debuff – coming into contact with the opposite color will cause raidwide damage and knock both players back. Foot-blasters are also colored, and must be triggered by a matching player or the raid will wipe.

One-Armed Bandit

Strategy

The One-Armed Bandit

The Slot Machine Boss

OVERVIEW

We must play the slot machines correctly by killing the correct adds to gain their tokens, depositing them based on their symbols to alter the mechanics. Deposit the same combo twice and wipe! Play carefully and adjust as the fight evolves.

TANK	Healer	DPS
Big CDs when triggering coils. Only trigger if space is needed.	Healer CDs on coin pulse aoe. Hold dispel until player moves out.	Target correct add and nuke quickly. AoE cleanup/CC bomb adds.

Phase 1

Identify which adds to kill based on the icons above their head to acquire the correct token.

Pick up the token from killed add and extra action button it into the boss.

Repeat with second add / token to trigger the slot machine.

You must complete this task in 30 seconds, and must NOT repeat combinations, or boss permanently enrages!

SLOT COMBINATIONS

Shock + Flame	Shock + Bomb	Shock + Coin	Flame + Bomb	Flame + Coin	Bomb + Coin
Coil spawns, spewing fire waves.	Coil spawns, releasing floating bomb adds.	Coil spawns, pulling in players and pulsing AoE.	Fixating bombs spawn, releasing fire waves on death.	Boss pulses raidwide damage for 5 seconds.	Fixating bombs spawn, immune to CC effects.

Place tankbuster void zone along edges of room to conserve space.

Click on spawned coils to reactivate their negative effect but remove 2 void zones when needed for space.

Interrupt Reel Assistant casts.

Kite/CC/Nuke bomb adds.

Run out to get dispelled with Withering Flames.

Dodge flame waves.

Use extra action button near chips to aim their roll and remove them from fight (aim near team for buff!).

Dodge rolling chip or get stunned!

Stand near path of rolling chip to acquire buff.

Phase 2 (After All 6 Token Combos Used)

Boss CHEATS and activates three of the same token types at once, one after the other!

All Shock	All Fire	All Coin	All Bomb
Position for the knockback on coil spawn.	Aim away from raid if targeted by boss with fire laser.	Heal through massive raidwide pulsing damage.	Instant raid wipe!

Kill the boss before the boss kills you! Must minmax chip buff to best enrage.

MYTHIC ONLY

The Reel Assistant Adds have shields that prevent them dropping below 25% health. To remove the shield, they must be hit by a Pay-Line chip. Have players aim the chip back to the adds, or else risk not depositing tokens in time to trigger the slot machine. Big Hit tank mechanic now acts to additional players for more Shocking Fields.

Phases: 2 Hero: P1

SPECIAL NOTES

Immunities - N/A
Dispel - Withering Flames
Interrupts - Overload

ABILITIES

PHASE ONE

Spin to Win - Adds summoned and slot machine wheel starts spinning for 30 seconds. Defeating an add drops a token that can be used to lock in one row of the slot machine. After two tokens, a prize is dispensed, and boss gains 5% attack speed.

Fraud Detected - If the same combination is used twice, or if two tokens are not deposited in time, boss damage done permanently increased by 500%.

Prizes:
Each token changes the mechanic differently, as a combo of the two tokens used.
Shock - Spawns a coil that must be deactivated by tanks, causing it to absorb 2 shocking fields.
Flame - Adds fire to dodge or fire dots.
Bomb - Spawns randomly fixating dynamite adds that explode if touched.
Coin - Deals raidwide damage.

Reel Assistants:
Overload - Interruptible jolt that knocks back and deals raidwide damage.
Withering Flames - Debuff random player, when dispelled shoots fiery waves.
Electric Blast - Large damage to target and small damage to raid, stacking.
Pay-Line - Chip rolls from boss, stunning players hit but buffing players nearby 10% damage/healing. Chips must be rolled back to destroy, or else buff boss damage by 5%.
Foul Exhaust - Raid damage & heal absorb.

The Big Hit - Tank damage and debuff increasing damage taken by Big Hit, leaves a Shocking Field void puddle.

PHASE TWO

Boss selects three of the same token type to gain an empower.
Shock - Coil spawns knocking players back, connecting damaging beam from coil to boss.
Flame - Targets player with fire beam.
Coin - Raidwide damage the rest of fight.
Bomb - Instant raid wipe.

Mug'Zee, Heads of Security		
The Head Honcho(s) Boss		
OVERVIEW		Phases: 3 Hero: Final Phase
This two headed ogre can't decide who is in charge – whichever side of the arena has the most players on it controls the mechanics you are dealing with. At 40% health, they figure out how to work together and barrage us with both!		SPECIAL NOTES
TANK Face boss away from raid. Soak beam with defensives. Drop puddles out of the way.	Healer Damage ramps the longer we stay on one side. CDs on side swaps.	DPS Take adds out quickly. Kill mines.
Phase 1A: Mug in Charge (Right Side)		ABILITIES
Mechanics determined by which side of the room the majority of players are on.		Head Honcho – Mechanics determined by which side of room has most players. Swapping sides removes stacks of Moxie. Moxie – Stacking 1% damage increase. Double-Minded Fury – Enrage at 100 energy. Carnage/Destruction – Swapping sides causes 5 seconds of large pulsing damage, then 2 minutes of light stacking damage.
<div> <div>Split up and have a few people soak the 2 Gaol cages – keep boss and some of raid outside.</div> <div>Nuke the cage add to get broken out, dodging it's frontal.</div> <div>Aim ice spears at cage walls or mines to freeze them.</div> </div>  <div> <div>Tank drop void puddles against wall after getting knocked back.</div> <div>Avoid aiming ice spears at friends.</div> </div>		Mug: Right Side Earthshaker Gaol – 2 players debuffed with circle, forming a cage around them and dealing damage split by players inside. Galligoo Goon – Spawns in cage, if overlapping with another or if no players inside, will enrage. Deals frontal cone damage and casts Pay Respects (interruptible boss shield). Gaol Break – Killing the goon knocks players back, breaking the cage walls. Frostshatter Boots – Players debuffed with slippery feet, launching ice spear at them. Spear can break cage walls and freeze mines (or players). Finger Gun – Frontal cone that forms lightning cloud void zone. Gold Knuckles – Frontal cone punching tank back, causing them to drop gold void zones. Must move to remove debuff or be stunned. Zee: Left Side Unstable Crawler Mine – Floating mines that detonate on impact, sending out soakable swirles. Not soaking = raid damage. Cannot soak two in a row. At 100 energy, immune to CC. Summons Volunteer Rocketeer Add: Goblin-Guided Rocket – Explosion on a player that leaves a fire puddle, damage split by players soaking, can only soak once every minute. Disintegration Beam – 12 seconds of ramping damage on a player. Summons Mk II Electro Shocker: Surging Arc – Damage that jumps to 3 players. Faulty Wiring – At 80% health, add is stunned and takes 100% increased damage for 8 seconds. Spray and Pray – Frontal cone at player, exploding any mines hit. Double Whammy Shot – Aims large beam at player, tank must soak it with mitigation to reduce damage the player takes. Player then explodes 5 seconds later, triggering any mines hit. INTERMISSION (40% Health) Static Charge – Charges forward, dealing damage to all in path and destroying all mines and gaols. Then spins around dealing cone damage. FINAL PHASE Gains access to all abilities at the same time, and 30% Haste.
Swap sides to reset energy and prevent dangerous mechanics – careful of raidwide damage after swapping.		
Phase 1B: Zee in Charge (Left Side)		
<div> <div>Kill mines if fixated.</div> <div>Trigger 1 mine by any player touching it.</div> <div>Soak the swirles spawned by mine explosion.</div> <div>Repeat to clear all mines, only trigger once per player.</div> </div>  <div> <div>Tank mitigate beam for player targeted by standing in it with defensives.</div> <div>Group soak big rocket circle.</div> </div>		
<div> <div>Dodge the randomly facing frontal.</div> <div>Nuke Adds – Get Shocker to 80% to stun, then blast it.</div> </div>		
Swap sides to reset energy and prevent dangerous mechanics – careful of raidwide damage after swapping.		
Final Phase: 40% Health		
<div> <div>Dodge charge and frontal cones.</div> <div>Handle both sets of mechanics at the same time. :)</div> </div>		
Boss gains 30% haste – Kill boss before boss kills you!!		
MYTHIC ONLY		
Head Honcho will only swap when all players are on the same side of the room. Gaol cage walls can only be broken by mines and ice spears. In order to remove your slippery boots, you must touch a fire puddle. Triggering a mine now one shots players, must use other mechanics to clear them. Shockers cannot be damaged until hit by tank frontal cone. At 40% health, the arena is split into two by a beam that will one shot players.
