

Sprocketmonger Lockenstock

Strategy

Sprocketmonger Lockenstock		
The Conveyor Belt Boss		
OVERVIEW		
This boss will throw a variety of dangerous inventions at you – navigate the conveyor belt of weapons and successfully disarm the land mines. Triggering too fast will seal your fate, so time them wisely and assemble yourself some new loot.		
TANK Taunt swap when exploding. Further away = less raid damage. You will be slowed!	Healer CDs during pulsing Sonic Ba-Boom. Heal off the absorb during P2.	DPS Single target damage, high movement. Utilize conveyor belt to move you while you cast!
Phase 1		
<div><div><div>Soak mines one at a time, pausing for debuff to fall.</div><div>Assign 3 groups of 4 players to rotate – can only soak once per phase.</div><div>Cross sides of the room when old side erupts in electricity.</div><div>Dodge rockets shooting from side of room</div></div><div></div><div><div>Tank must run away from raid when exploding.</div><div>Dodge beams shooting from side of room</div><div>Run away from magnets to avoid getting sucked in.</div><div>Drop off drills on side of room if marked.</div></div></div>		
Phase 2		
Boss flings raid back to the entrance and jumps away. Travel along the conveyor belt to reach boss and continue damage.		
<div><div></div><div><div>Heal off the absorb placed on the raid.</div><div>Dodge swirlies.</div></div></div>		
When boss phases back to P1, inventions are buffed and 2 trigger at a time now! Bigger beams and AoE exploding rockets.		
MYTHIC ONLY		
Raid team is assigned a red or blue polarization debuff – coming into contact with the opposite color will cause raidwide damage and knock both players back. Foot-blasters are also colored, and must be triggered by a matching player or the raid will wipe.
